

May 16, 1975

here if you wish to over ride. Those of you who wish to override. You don't. We haven't passed a budget bill. This must have the Emergency Clause, and I...

PRESIDENT: Senator Burbach, I hate to do this, but there is no argument on Final Reading, Mr. Speaker. The... Senator Savage.

SENATOR SAVAGE: I'd ask for a Call of the House.

PRESIDENT: We are under call. (machine off).  
Yes sir.

SENATOR DICKINSON: Mr. President, members of the Legislature I just want to register a protest. I realize that you took the proper action, finally but I don't think that we should allow lobbying or debating on Final Reading.

PRESIDENT: I agree completely, and I recognize the Speaker, and I didn't realize that there would be some discussion. I agree with you Senator Dickinson. Please read LB612. (machine off) Read the motion.

CLERK: Move to return LB571 to Select File for a specific amendment. The specific amendment is by Senator Kelly and reads as follows. (read)

PRESIDENT: Chair recognizes Senator Kelly.

SENATOR KELLY: Mr. President, members of the Legislature, This amendment creates in 571 a true rural out-state Nebraska medicine, or medical services bill, in that it restricts the residencies referred to in 571 to that of family practice. You'll get as many figures in this bill as you want, and the simple ones I'm going to use is that it now contains 15 slots for family practices and 110 for other residencies other than family practices. This is again build as a rural Nebraska out-state Nebraska bill. Solidly supported by the Omaha delegation not quite so solidly opposed by the out-state delegation. But beware rural and outstate Nebraska, you are surrounded by the enemy. From the front will come the head of the Omaha Protection Association, and from the rear will come the rear guard of the Omaha Protect Association and they will offer to you excuses why this bill should not be an out-state Nebraska bill why it should not contain family practices and family practice only. Listen to their excuses and listen well by their own words they will convict themselves of their admission and I sincerely ask that this be returned to adopt this amendment.

PRESIDENT: Senator Goodrich.

SENATOR GOODRICH: Well Senator Kelly were going to reverse the order on you. Were going to get you from the rear first. Mr. President, members of the body. This is a second attempt by Senator Kelly to kill the bill. You will probably recall that he distributed a letter to you addressed to him from Senator, or Dr. Sparks from the Med Center at the bottom of which is a P.S. It says and he is talking to Senator Kelly relative to Grand Island. "I know that you are aware of
